# MULTIPLE FUNCTIONS ALL-IN-ONE PUMP

The Econ FP is compact, easy to program and can respond to flow input from a variety of water conditioning equipment

## Water Meter

The pump will accept a pulse input from a dry contact water meter and has adjustable operating times of 0.1-1, 0.5-5, 1-10, 2-20 or 6-60 seconds per pulse.

## Flow Switch

Accepting a signal from a dry contact flow switch, the pump will run at the selected speed when the switch is closed and stop when the switch opens.

## 12-24 VAC/VDC Input

The pump will run at the selected speed when it receives a 12-24 VAC/VDC signal from a water softener or other equipment.

Up to 30 gpd @ 80 psi

Wall Mountable

Adjustable from  
10% to 100%

Effortless Tube Replacement
